

ADVERTISING AIR FRESHENERS PRICE LIST FOR FINAL CUSTOMER

There are few promotional/advertising products that are as functional as **air fresheners**.

Using any shape referring to e.g. the form or color scheme of your Company logo, air fresheners promote you for as long as they remain in cars, right before the eyes of your possible customers. Furthermore, advertising air fresheners not only involve the shape and color, but the smell as well, which, as our everyday experience suggests, draws the attention of others.

Due to their being small and lightweight, car air fresheners are perfect material for the so-called "inserts" i.e. attachments to press or letters.

Net prices per 1 piece.

Volume	100	200	300	500	1 000	2 000	3 000	4 000	5 000	7 000	10 000
Premium	8,58	6,52	4,66	3,55	2,83	2,25	1,99	1,88	1,70	1,59	1,46
Standard	7,22	5,43	3,99	2,98	2,19	1,78	1,49	1,39	1,30	1,22	1,09
Blisters	-	-	-	-	2,41	1,29	0,91	0,74	0,57	0,52	0,45

Premium – air freshener with increased fragrant oils content (around 2 ml/pc)

Standard – air freshener with standard fragrant oils content (around 1 ml/pc)

Blister – a piece of cardboard that helps display the air fresheners and provides additional advertising space (for details see further part of the offer)

Printing method: screen printing or offset (full color).

Prepress: (screens, plates etc.) – free!

Issues of over 10.000 pieces are priced individually.

Color adjustment: colors available for screen printing – PANTONE®, for offset – CMYK. While choosing colors, remember that car air fresheners are soaked in fragrant oils, which may cause slight differences in the anticipated color scheme. Eventually, the colors of air fresheners may be darker than originally expected.

Additional information

Standard time of production: **14 working days.**

Choice of fragrance: fragrances permanently available for production include: New Car, vanilla, sandal tree, forest, apple, orange, lime, strawberry, green tea, CK-1 (men's perfume), CK-2 (men's perfume), melon, tropical fruit, forest fruit, bergamot & tobacco, aquarelle (floral), mint.

We can also make any fragrance upon the Customer's individual request. The fragrance oils we use are in accordance with IFRA recommendations. A single order can include any fragrance composition, assuming that orders up to 500 car air fresheners allow using one fragrance, allowing up to four fragrances in total for larger batches, but no fewer than 500 pieces per fragrance.

Punches: our offer includes punches in numerous shapes. If, however, none of them meets your requirements, we can make a punch in line with the Customer's guidelines. This service costs 300,00 PLN net.

Material: OXiDE only uses special materials intended for the manufacture of air fresheners, and not regular cardboard, which is so commonly used in Poland. Our material is several times more absorbent than cardboard, which makes the smell last longer, and the colors remain more intensive.

Blisters: every air freshener can be mounted on a cardboard with euroslot. White 200 g cardboard, single-sided coating, with the dimensions of 8x18 cm after folding with the fixed freshener, after unfolding – 8 x 24 cm. Blister may be printed with 4 colors on one side (offset – full color print) and 1 color on the other.

Blister provides additional space to include information about the company and its offer, while remaining easy to hang on various types of displays.

Packaging: every product is fitted with a plastic hook or rubber band. The air fresheners are packed individually in barrier foil.

All prices are net prices; a statutory VAT must be added. The offer remains valid for 14 days.

Before submitting an order, please read our General Terms and Conditions available on our website.
